

Kryptonics

The logo for Kryptonics is a stylized, multi-layered geometric shape resembling a flower or a complex atomic structure, composed of overlapping petal-like or leaf-like segments in a light blue color.

Hello!

This is team Pandas

We are here to showcase our project - “Kryptonics” is a ML based assist app which helps you to get the best crypto’s to invest.

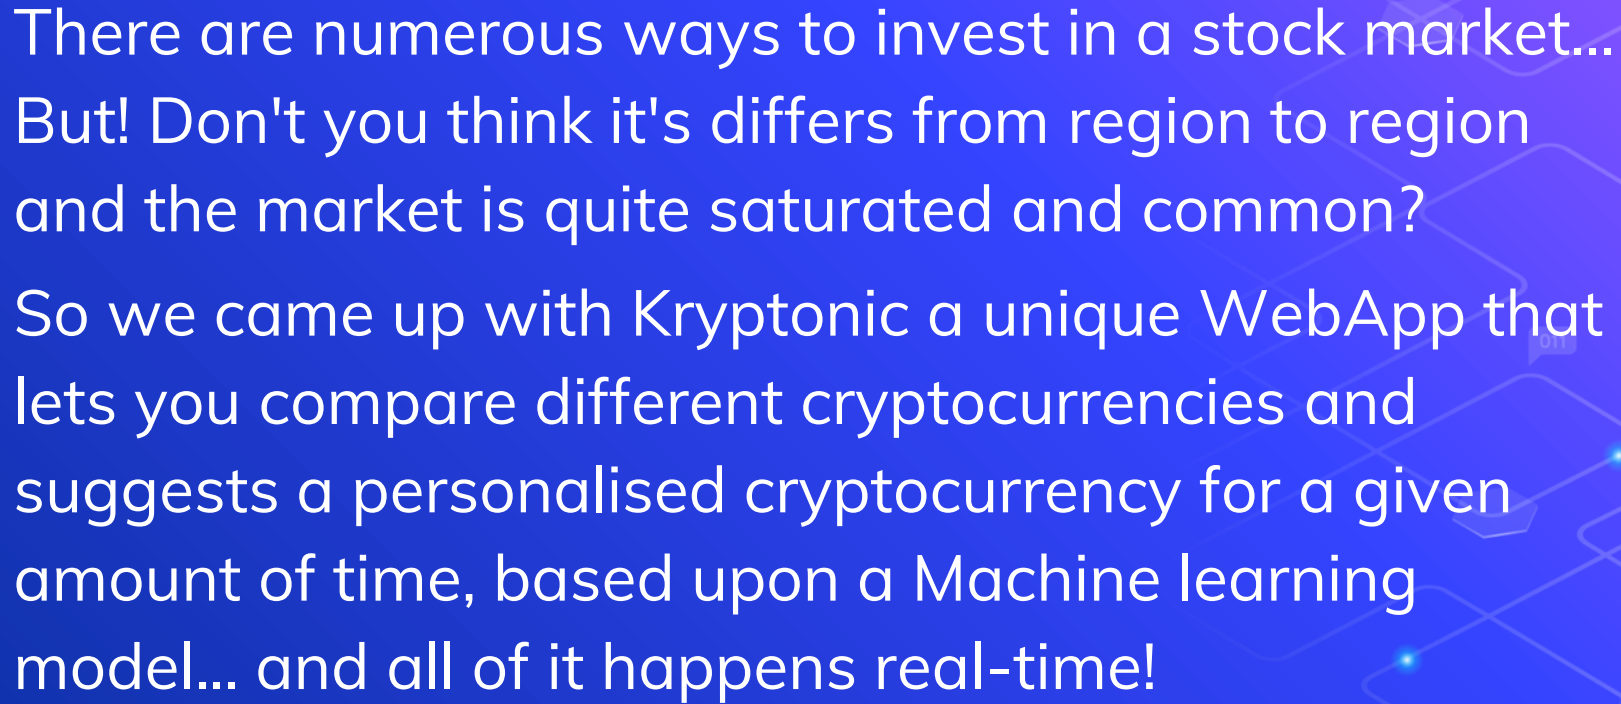

Theme: Blockchain + ML

1. Problem Statement

Why did we choose this project?

There are numerous ways to invest in a stock market...
But! Don't you think it's differs from region to region
and the market is quite saturated and common?
So we came up with Kryptonik a unique WebApp that
lets you compare different cryptocurrencies and
suggests a personalised cryptocurrency for a given
amount of time, based upon a Machine learning
model... and all of it happens real-time!

1,200,000,000\$

That's a lot of money invested in cryptos - 1.2bn \$

42,290,501 users

And a lot of users

328,300 transaction

Daily (of bitcoin alone)

Then Why?

Why is not everyone investing
and buying cryptocurrency?

Because most of the people think its too complicated to understand & much more unpredictable in accordance with stock market !

Which brings us to

Kryptonics : A simple web app which will assist you in deciding in which cryptocurrency to invest by making future predictions !

Kryptonic

WebApp hosted on azure
developed NodeJS and
React

Features

Fully Developed and Hosted on
Microsoft Azure.

Using Web App module to host our app, machine learning model is deployed on a virtual machine and code was created on the notebook.

Features

The app works on live data and generates a personalized ML model for each coin based on its history, the live api we are using “CryptoCompare” has a 98% Up rate.

Novelty

We used Facebook's prophet algorithm for time series data as it takes in account for season, weekday, holidays which are variables in predicting in such a problem.

The Prophet logo, featuring the word "PROPHET" in a bold, white, sans-serif font. The letter "O" is replaced by a stylized circular icon with a dot in the center, resembling a planet or a data point. The logo is set against a dark blue rectangular background.

PROPHET

The Facebook logo, featuring the word "facebook" in a bold, white, sans-serif font. The logo is set against a dark blue rectangular background.
